I have followed a tutorial and implemented the correct code. I am getting errors in the console that there are multiple providers registered for the same type. Here are the errors I am receiving in the console:

Here is my code: - (BOOL)application:(UIApplication *)application didFinishLaunchingWithOptions:(NSDictionary *)launchOptions { ... // Register for remote notifications [[UIApplication sharedApplication] registerForRemoteNotificationTypes: (UIRemoteNotificationTypeAlert | UIRemoteNotificationTypeBadge | UIRemoteNotificationTypeSound)]; // Enable remote notification functionality for this app [FIRApp configureApp]; // Enable notification tests in this app [[FIRMessaging messaging] setTest:[FIRApp defaultApp]]; I have followed a couple tutorial and all show me the same problem. Any insight as to why this error is being returned and how I can get rid of it would be greatly appreciated. Thanks! A: Check if you have multiple Apple-ID's registered with apple developer...If you have multiple apple developer.run through: Go to Settings > Apple ID. Select AppleID. Select "Signing & Profiles" and then "Certificates, IDs & Profiles". You'll see multiple profiles and on top you can select one Your App is still working and it's not the problem. If your app stops working, go to Help, and for more info: If your app stops working in iOS 8 Beta 5, even if you haven't updated your code since iOS 7.0, try updating your device to iOS 8 Beta 5. Your app may
